

IPOKRATES Foundation Clinical Seminar

The BEST of IPOKRATES: An UPDATE in NEONATOLOGY

September 4 – 7, 2017

Koninklijk Instituut voor de Tropen (KIT), Amsterdam, The Netherlands

Objectives

IPOKRATES seminars provide high quality intensive theme-oriented postgraduate education, which enables professionals to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts. This „Best of IPOKRATES“ conference offers a more comprehensive update on a multi-thematic scale that includes pathophysiology, clinical assessment, management and care, and ethical issues in the premature and mature newborn with medical and surgical problems, while also offering ample opportunities for personal interaction with the international experts during breakout sessions.
