

IPOKRATES Foundation Clinical Seminar

Infectious diseases and immunologic disorders in neonates and children

April 6 - 8, 2017

Eurostars Oporto Hotel (www.eurostarsoporto.com), Porto, Portugal

Objectives

IPOKRATES seminars provide high quality postgraduate education, which enable professionals to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts. This seminar is designed to familiarize the practicing neonatologist and pediatrician to understand and manage infectious diseases of the newborn and infant. It will also provide an insight into the development of the immune system. In particular, lecturers will focus on modern aspects of perinatal and neonatal inflammation and infection, on issues of bacterial and viral infections as well as on practical topics like microbiological diagnostics, the febrile child or use of antibiotics. There will be ample chance to directly discuss problems with the experts.
