IPOKRaTES Clinical Seminar

Foundation

Infectious diseases and immunologic disorders in neonates and children

Downtown Rotana Hotel, Manama, Bahrain
October 25 – 27, 2018

Objectives
IPOKRaTES seminars provide high quality postgraduate education which enables professional to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts. This seminar is designed to familiarize the practicing neonatologist, pediatrician and nurses with common infectious problems of the fetus and newborn infant and to provide them with an insight into the development of the immune system. In particular, lecturers will focus on modern aspects of perinatal and neonatal inflammation and infection, the importance of the perinatal microbiome, as well as on practical topics like microbiological diagnostics, and use of antibiotics. There will be ample chance to directly discuss problems with the experts.

Lecturers

Holländer Georg	University of Oxford, Oxford, UK
Hooven Tom	Columbia University, New York, USA
Polin Richard A.	Columbia University, New York, USA
Stanberry Lawrence R.	Columbia University, New York, USA
