

# IPOKRATES

## Clinical Seminar

Foundation

## Care of perioperative surgery in neonates

Yogyakarta, Indonesia  
October 10 – 12, 2019

### Objectives

IPOKRATES seminars provide high quality postgraduate education, which enable professionals to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts. This seminar is designed to provide participants with updated approaches to the care of neonates who require surgery. Pre, peri and postoperative management strategies will be discussed including pain management, and nutritional support. Various surgical issues will be discussed including congenital diaphragmatic hernia, TE fistula, abdominal wall defects, and necrotizing enterocolitis. The participants will be given ample time to interact with the faculty and also to present interesting cases from their own experience

### Lecturers

Tom Jaksic	Children's Hospital Boston, Boston, MA, USA
Tom Mancuso	Boston Children's Hospital, Harvard Medical School, Boston, MA, USA
Biren Modi	Boston Children's Hospital, Harvard Medical School, Boston, MA, USA
Josef Neu	University of Florida, College of Medicine, Gainesville, FL, USA

Limited Number of Participants: 70

from Indonesia	before August 31, 2019	350,00 €	after August 31, 2019	375,00 €
from outside Indonesia	before August 31, 2019	400,00 €	after August 31, 2019	425,00 €

# Care of perioperative surgery in neonates

Yogyakarta, Indonesia  
October 10 – 12, 2019

## Thursday, October 10, 2019

Introduction to the Seminar	
Basic Nutrition for Term and Preterm Infants without surgical Illness: Enteral and Parenteral	J. Neu
How Does Surgical Illness Affect Nutritional Needs in Term and Preterm infants?	T. Jaksic
<i>Break</i>	
Necrotizing Enterocolitis: Pathophysiology and Prevention	J. Neu
Necrotizing Enterocolitis: Surgical Considerations	T. Kaksic, B. Modi
Basics of Pain evaluation in pediatrics	T. Mancuso
<i>Lunch</i>	
Abdominal Wall Defects - Developmental Considerations, Recognition, Differentiation and Considerations for Pre-Operative Management	T. Jaksic, B. Modi
Congenital Diaphragmatic Hernia (CDH) - Special Considerations for Stabilization, Management of Pulmonary Hypertension, and Ventilator Support	J. Neu, T. Mancuso B. Modi and T. Jaksic
CDH: perioperative considerations	T. Mancuso
<i>Break</i>	
Esophageal Atresia/Tracheoesophageal Fistula Anomalies - Stabilization, pre, peri and postoperative management	B. Modi, T. Mancuso
Considerations for Stabilization and Transport of Babies with various surgical problems – Cases from Indonesia, discussion with faculty.	

## Friday, October 11, 2019

Surgical Emergencies - Recognition, stabilization, management	T. Jaksic, B. Modi
Pre, peri and postoperative pain management considerations for the baby requiring surgery	T. Mancuso
Congenital Anomalies of the Small and Large Intestine - Pathophysiology and Recognition	T. Jaksic, B. Modi
<i>Break</i>	
Pre-peri and postoperative surgical and anesthetic considerations for babies with congenital anomalies of the small and large intestine	B. Modi, T. Jaksic, T. Mancuso
Pain management and sedation in the NICU for babies undergoing “minor” procedures -e.g.,-laser for retinopathy, intubation, etc.	T. Mancuso , J. Neu
Question and Answer session	
<i>Lunch</i>	
Short Bowel Syndrome – acute and chronic management	T. Jaksic
Stomas - when to have one and when to close	B. Modi
Medical Causes of Cholestasis and Management	J. Neu
<i>Break</i>	
Surgical Causes of Cholestasis, Treatment and Management	B. Modi
Feeding and other long-term Issues in the Baby with Short gut – Rehabilitation	T. Jaksic, B. Modi, J. Neu
Case Presentations from Indonesia and Discussion	

## Saturday, October 12, 2019

The Difficult (newborn) Airway	T. Mancuso
Miscellaneous Surgical Conditions - Special considerations for Pain Management	T. Mancuso
<i>Break</i>	
Interesting cases from faculty and participants	
Ethical Considerations – Faculty and Presentations	

**Subject to change.**
