

IPOKRATES

Clinical Seminar

Foundation

Care of perioperative surgery in neonates

Yogyakarta, Indonesia
October 10 – 12, 2019

Objectives

IPOKRATES seminars provide high quality postgraduate education, which enable professionals to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts. This seminar is designed to provide participants with updated approaches to the care of neonates who require surgery. Pre, peri and postoperative management strategies will be discussed including pain management, and nutritional support. Various surgical issues will be discussed including congenital diaphragmatic hernia, TE fistula, abdominal wall defects, and necrotizing enterocolitis. The participants will be given ample time to interact with the faculty and also to present interesting cases from their own experience

Lecturers

Tom Jaksic	Children's Hospital Boston, Boston, MA, USA
Tom Mancuso	Boston Children's Hospital, Harvard Medical School, Boston, MA, USA
Biren Modi	Boston Children's Hospital, Harvard Medical School, Boston, MA, USA
Josef Neu	University of Florida, College of Medicine, Gainesville, FL, USA
